### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

Applicant's pointing out that the Horton patent teaches freeze-drying as a means of inactivating the worm and does not pertain to killed worms and applicant's pointing out that Kawamura does not teach blanching for a period of time to kill the worms, has caused the allowance of these claims since no prior art of record, teaches or fairly suggests what applicant has done. Claims 18-20 are also allowable over art of record since prior art does not teach or fairly suggest using a bag that is impervious to oxygen to contain the frozen dead *Catalpae* larvae.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Prior Art***

Note that the IDS filed 8/26/2003 is being re-sent although it was considered earlier as filed with First Office action of date 2/6/2008. However, the IDS now reflects that the references without a date have not been considered.
